

To whom it may concern

CCC certification for electrical equipment used in machinery

We hereby confirm that our products, including Integrated Stepper Motors (MIS and MIL series), Integrated Servo Motors (MAC series) and auxiliary equipment is currently not subjected to CCC mark, either or not installed in a finished machine.

We do not find that our industrial motors falls into any categories found in the latest CCC Product Catalogue (May 2008). (Summary can be found here <http://www.ccc-cn.org/en/Catalogue.html>)
