Subject: REACH declaration of conformity / your inquiry

Dear Business Partner,

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the registration, evaluation, authorization and restriction of chemicals (REACH) entered into force on 1 June 2007.

We would like to inform you that all our products are out of scope of article 7, paragraph 1 (b) of the regulation mentioned above. That means "under normal or reasonably foreseeable conditions" our products do not release substances as detailed under REACH. Therefore pre-registration or registration of products/substances is not necessary.

The candidate list according to article 59 (1, 10) of the regulation, was published and incorporated into our company procedures accordingly. We would be pleased to provide detailed information on specific product inquiries.

Mitsubishi Electric is committed to following the principles of the REACH regulation. To manufacture environmentally friendly and high-quality products is a core objective for the company.

If you have any questions please do not hesitate to contact us.

i. A. Tetiana Klopova
