To Whom it may Concern

25th September 2023

Subject - *European Union Sanction Package – Regulation (EU) No. 833/2014.*

TE is committed to complying with applicable trade laws and has a policy on sanctioned countries and regions, which provides that TE does not engage in any transactions or dealings, directly or indirectly, with or for any party associated with sanctioned countries, including Russia. Additionally, TE requires its suppliers to comply with all applicable trade laws through its purchasing terms and TE's Guide to Supplier Social Responsibility.

Further, TE's Guide to Supplier Social Responsibility includes a requirement for suppliers to conduct and support necessary supply chain mapping initiatives and provide evidence of the supply chain mapping. TE conducts due diligence of its supply chain to ensure compliance with its policy and the new EU and UK restrictive measures on Russian iron and steel products, and TE undertakes reasonable efforts to provide sufficient evidence of origin and other documents and information that are available to TE to demonstrate compliance with these restrictive measures.

Yours sincerely,
