# ESCHA

## TRANSPORTATION

Connectors, harnesses for all wiring levels in bus & rail.

According to standards: Fire performance, temperature, mechanical stress, vibration, shock

### RAIL APPROVED

- DIN EN 45545-2 HL3
- DIN EN 50155

Data connectors 10Gbit/sec.

100Mbit/sec. | Sensor-/Actuator wiring | Power supply

### BUS APPROVED

- ECE R118
- Data connectors CANopen/ DeviceNet, Industrial Ethernet | Sensor/Actuator, Harnesses: Inch perfect, overmolded, tested ...

## RENEWABLES

Connectors and harnesses for extreme conditions in wind power plants.

- 360°-shielding
- HALT-tested
- Low smoke zero halogen (LSZH)
- IEC 60811-2-1
- IEC 603322-1
- IEC 60754
- IEC 61034

Comprehensive portfolio: M8, M12, valve plugs, T-splitter, Y-splitter

### Individual harnesses

- Inch perfect
- Overmolded connectors
- 100% tested
- Labeling, sets, special-packaging

## MOBILE AUTOMATION

Connectors and harnesses for utility vehicles.

- M12-connectors with robust stainless-steel- or plastic locking-nut
- Valve plugs A, B/BI, C/CI
- Series ET compatible with DEUTSCH® DT portfolio (DEUTSCH® is a registered trademark of the TE Connectivity Group)
- Individual B-side assembly
- Thread for protective hose
- Original accessories: Mounting-kits, safety-caps, protectivehoses, marking-rings...
- Dust- and water proof junctionboxes (customer specific), individual harnesses for immediate installation

IP65, IP67, IP68, IP69

For ESCHA, implementing customer requests is both a business idea and a driver of innovation. We develop smart connectivity solutions for different industries or modify already existing components from our standard range. The technical possibilities are various: From overmolded grip-bodies in individual color or special design over specific pinning up to changed strand diameters or cable qualities.

In terms of logistics, we have focused on the production of complex cable harnesses. Ready-made solutions offer the advantages of inch-perfect connectivity - 100% factory-tested, labelled, printed, bundled and packaged. This means direct, fast and error-free assembly on site. Plug & Play in wind turbines, ships, commercial vehicles or in wagon construction.

»Signal in a box« – that's what IP67-connectivity means to us. We also offer great opportunities for this. Development, construction and toolmaking in one hand guarantee fast and clever solutions according to customer requirements.

We look forward supporting you – a lot is possible.

## ESCHA – specialist in connectivity.

ESCHA develops, manufactures and markets high-grade connectivity- and housing technology. Coming from automation engineering, we master the technology of dust- and waterproof connectivity. We regularly transfer the advantages of this technology to new applications and develop product portfolios for different industries.

Through our global sales network and production sites in Europe, Asia and America we are close to our customers and guarantee consistent standards worldwide.
